

## Email

1. Candidates should be able to receive email once a company accepts application
2. User/Candidate should be able to accept job offer/reject
3. Once offer is accepted recruit, candidate and University should receive email

## Recruit Email

→ The email should notify them that candidate has accepted the offer and include the details of the candidate

## Candidate Email

→ The email should provide email of recruit and state that they will be contacted soon

## University Email

→ The email for university should only appear if

- i. The ability for Universities to view actually is activated by student
- ii. If the candidate accepted the offer
